

## HGD INFO

### Human Growth and Development

The Wauwatosa School District's Board of Education directs that students receive instruction in human growth and development (HGD), consistent with both Wisconsin State Statutes and the [National Sexuality Education Standards \(NSES\)](#). As such, we emphasize the importance of communication about sexuality and decision making about sexual behavior between the student and the student's parents, guardians, or other family member.

Here are helpful links to curricular materials for Human Growth and Development in middle school.
