

## Announcements for Thursday, February 2

---

### **Black History Month**

On February 2nd, 1897 Alfred L. Cralle was granted a US Patent for the “ice cream scoop”. While working at Hotel Cralle came up with the ice cream scoop after he noticed that ice cream would tend to stick to the spoons and ladles being used to scoop ice cream out of the bin. The use of two hands was also required when using spoons or ladles. Cralle’s invention was first called the “Ice Cream Mold and Disher” and later became commonly known as the “ice cream scoop”

### **Senior Ball**
